Ask your librarian for more information!

- 1** Go to your library's website to **launch Ebook Central**.
- 2** Choose among 10 different interface languages.
- 3** Conduct a simple or advanced search that can be narrowed by publication year, relevance, subject, and other parameters. Search for exact phrases by putting them in quotations (e.g. "autism spectrum disorder").
- 4** Select the title to **enter a landing page** that provides key information about the ebook including a description, download availability, and copy and print allowances.
- 5** Open the ebook and **navigate** by scrolling or flipping through pages. Search for keywords within the ebook and jump to relevant chapters.
- 6** Take notes, highlight text, and bookmark pages, all of which are stored on your bookshelf.
- 7** Create a proper citation in your choice of format. Citations are automatically created when you copy and paste text and print pages and chapters to PDF.
- 8** Manage research in your bookshelf with folders and other tools. Share ebooks and folders with peers.
- 9** Download ebooks or specific chapters to use offline. Enjoy ebooks on-the-go on any mobile device with the independent Bluefire Reader.
- 10** Enjoy ebooks on-the-go on any mobile device with the independent Bluefire Reader.
